Sponsorship Opportunities

Along with the sculptures that will be created as part our Symposium each year, some of our sculptures from past symposiums still need sponsorship.

Ways to Sponsor a Sculpture

Sculpture sponsorship plays an important role in the Symposium's success. Our Symposium would not exist without the generosity of the community. The cost of a sponsorship is $4,000.

Sponsorships can be by one person, a family, a group of people, or businesses can sponsor a sculpture. A sculpture can be sponsored in memory of a loved one, such as "Turtle Island." Other sponsorship ideas are always welcome.

Reasons to Sponsor a Sculpture

The Symposium has no paid staff and would not exist without the generosity of the community. Our costs are our sculptors' stipends ($3,000 each), which helps cover their travel costs; our Artistic Director, ($6,000) which covers the three plus Symposium weeks (6 days a week, 12 hours plus a day) and preparation time getting materials and tools ready; stone and other materials ($4,500); and other expenses such as admin ($3,500), tools and equipment ($25,000), signage ($930), and children's event ($2,500).

Benefits of Sponsoring a Sculpture

Along with the knowledge that a sponsorship contributes to expanding art in Nashua, the benefits are numerous. We are very grateful to our sponsors and thank them at every opportunity, such as at our Opening Celebration each year, publicity as appropriate, and at the dedication of the sculpture. The sponsor's name is prominently displayed on the plaque that is permanently placed with the sculpture. Sponsors are invited to our various events and are welcomed and acknowledged whenever possible, including in the Yearbook.
